

FOOD GRADE RECYCLED PET SHEET

INTCO MALAYSIA, R-PET Sheet offers excellent light transmittance and mechanical strength, high resistance to oxygen and water vapor, customized cutting and special functional additives, high-end customization. ABA three-layer co-extrusion structure, in line with EFSA and FDA food safety certification, widely used in food and beverage packaging industry.

REACH

ROHS

Features

- Food grade, FDA & EFSA certified
- ABA Multi-layer / Single Layer
- rPET content percentage: 30% –100%
- Excellent flavour barrier properties
- Easy thermoforming characteristics
- Excellent impact resistance
- High transparency and gloss

Products

Sheet Type	80% Recycled	50% Recycled	30% Recycled
Silicon	RS8001	RS5001	RS3001
Antistatic	RS8002	RS5002	RS3002
Width	350–1600 mm		
Thickness	0.2–1.2 mm		

Applications

Food Box

Cake Packing

Beverage Cup

Electronic Tray

Company Profile

3 Business Units

Reduce, Recycle, Reuse

6 Production Bases

Malaysia, Vietnam, Zibo, Shanghai, Lu'an, Zhenjiang

50,000 Tons/Year

PET Beverage Bottles Recycling

Production

- Automatic Washing System
- Automatic Sorting Equipment
- Automatic Sheet Production Line

Quality Control

Advanced testing instruments, professional R & D team

Environmental Contribution

+150,000 Tons/Year
r-PS, r-PET

-300,000 Tons/Year
Carbon Emission

-450,000 Tons/Year
Oil

-2 Million Trees/Year
Tree Felling
